

It is hard to believe that corporations like Fox News and now Sinclair Broadcasting, that are supposed to be unbiased reporters are using their powerful mass media tools, to distort the truth or to be politically inclined. I am talking about their decision to broadcast an anti Kerry piece from now till the election day.

There needs to be a lot more control on how we let these supposedly neutral agencies do their reporting. Maybe lawsuits, maybe licensing renewals, maybe some kind of score so that we the people can see where they stand.

Thank you
